GRE Preparation Program

The GRE Test

The GRE (Graduate Record Examinations) is required by most U.S. graduate degree programs in the sciences, social sciences and humanities. Additionally, more business schools worldwide are accepting GRE scores in place of GMAT scores in order to boost the diversity of their student body. The GRE tests the same set of skills every time (verbal reasoning, quantitative reasoning, critical thinking and analytical writing skills), so you can improve your score with the right preparation. A good score can be the deciding factor between otherwise equally qualified applicants and it can determine the amount of funding you receive for a graduate program.
